

Tree Plantation on World Environment Day

TERRE Policy Centre and TATA Motors celebrated World Environment Day in the afforestation site in Mhalunge.

Mr. Vijay Mayekar, Mr. Achintya Singh, Mr. Mayuresh Kulkarni, Mr. Nitesh Attarde and Mrs. Ujwala Khaldker from TATA Motors, and **Dr. Vinitaa Apte** from TERRE graced the event by planting trees.

TERRE celebrated World Environment Day with Deccan Honda, Pimpri

This year, World Environment Day was hosted by India who received huge response from all over the country. Even at the ground level, large number of people participated and contributed their efforts towards conserving Mother Nature.

Deccan Honda, Pimpri organised 'Screening of environment-based short films' followed by an interactive session. TERRE screened two short films namely, 'Turtle in the soup' and 'Leopards in the Lurch'. 'Turtle in the Soup' is based on the smuggling of tur-

bles for food purpose while 'Leopards in the Lurch' showcased how leopards are getting endangered every coming day! Both the short films highlighted the need of environment education and awareness amongst the society.

The event progressed by an interactive session by Dr. Vinitaa Apte, Founder Director-TERRE. She focused on how the mankind is running towards destruction of our planet in high pace. "Waste is the most threatening cause of Pollution. When we throw the waste away, there is no 'away!'"

quoted Dr. Apte. She appealed to the staff of Deccan Honda to plant one tree as a memory for every deal.

President Corner

There is no need to pray day and night to get nice rains. Plant a tree, conserve the forests and rain will pour. It's his love towards the Earth. !!

Happy Monsoon'

Dr. Vinitaa Apte
Founder President, TERRE

Founder Director of TERRE awarded by Rotary Club, Pune

Rotary Club Of Pune, Sahawas honored **Dr. Vinitaa H. Apte** with '**Rotary Vocational Excellence Award**' at the Hands of Hon. Mukta Tilak - Mayor of Pune. She was commended for

Nelda means 'Champion' in Irish language. It is an award given to organization or a group of volunteers who are working for the betterment and preservation of environment and society. Project Nelda was launched in the year 2016 with a plan to grow a billion trees by

TERRE felicitated Prakashache Bet Awardee

On 29th June, TERRE felicitated **Mr. Dheeraj Watekar** as an Awardee for the 9th edition of Prakashache Bet at the hands of **Dr. Vinitaa H. Apte** - Founder Director, TERRE.

While working in the field of environmental journalism, loss of forestry has been observed prominently. To aware and educate future generations and the society, Mr. Dheeraj Watekar initiated the afforestation programme.

Dr. Vinitaa H. Apte stated, *“Preventing the deforestation must be the objective of every individual. This is why, TERRE is working in plantation at massive level and has planted 40,000 Trees in last three years. In current year, TERRE is planting 30,000 trees at Dolvi site as well as 18,000 at Mhalunge.”*

Mr. Dheeraj Watekar is generating employment opportunities by planting the Sandal trees. *“Building the forest with a*

healthy biodiversity is one of the toughest job to do. It’s really difficult at times to carry these activities but receiving encouragements from organisations such as TERRE will always provide the zeal to continue and achieve targets.” he quoted.

Volunteering activity at Mhalunge

Thirty volunteers from 'Garware-Wall Ropes' planted 100 trees at Mhalunge site. They expressed their enthusiasm and have committed to volunteer in such socio-environmental activities consistently henceforth. They believe that giving

back to society and environment is an individual as well as group responsibilities.

TERRE appreciates Garware-Wall Ropes for their dedicated contribution.

Little Bee-eater

Found in Sub-Saharan Africa, this is a brightly coloured Bee-eater. It often hunts from low perches, maybe only a metre or less high. Unlike most bee-eaters, this is solitary nesters making a tunnel in sandy banks but it roosts communally.

Small Act Green Impact

Those little plastic scrubbers found in so many beauty products like facial scrubs, toothpaste, body washes—might look harmless, but their tiny size allows them to slip through water-treatment plants. Unfortunately, they also look just like food to some marine animals. Opt for products with natural exfoliants, like oatmeal or salt, instead.

TERRE signs its Grand MoUs

TERRE Olympiad kickstarts the Registration for 2018-2019 edition

TERRE Olympiad, an online quiz competition organized every year by TERRE Policy Centre is stepping into its 4th edition. We are happy to announce that the school registration portal for the exam is now open and you can visit the website below for more details: www.terregreenolympiad.com

HOW MUCH CAN YOU SAVE

Here's how much energy and money do you save at different AC temperature settings

°F	°C	Total energy used (kWh/day)	Cost of using an AC		% of energy or money saved vs 18°C
			(₹ per day)	(₹ per month)	
120	50	9.0	58.5	1,755	30.8
100	40	10.5	68.3	2,047	19.2
80	30	13.0	84.5	2,535	NA
60	20	18			
40	10				

Assumptions: City: New Delhi; AC: 1.5 tonnes, 5-star rated window AC; Energy consumption: 1.3KW/hr; Electricity cost: ₹6.5 per unit; AC functioning for 10 hours a day with each month having 30 days; Savings in lower temperatures (<24°C)—6% for every 1°C; Savings in higher temperatures (>24°C)—4% for every 1°C; No other electricity consumption in the household

You save **3-4%** power for every degree increase

Increasing your AC temperature from

18°C to 27°C
can help you save around **₹6,240**
in a year

Increasing your AC temperature from

18°C to 24°C
can help you save around **₹3,900**
in a year

the Environment CROSSWORD

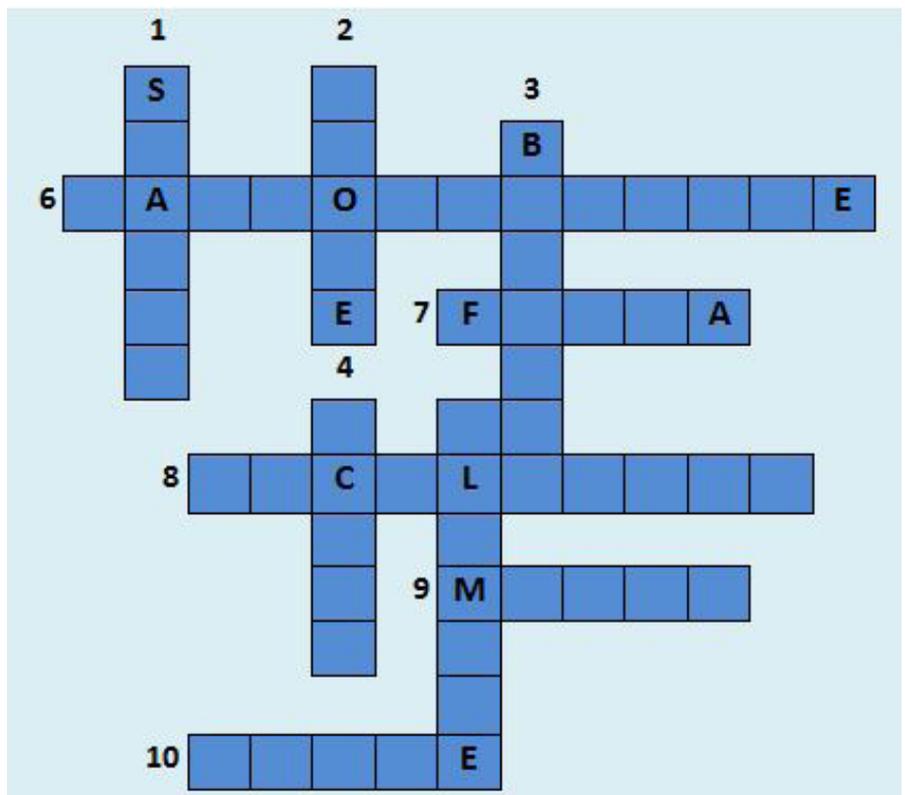

DOWN:

1. A carbohydrate which is tasteless, odourless, a white powder and insoluble in water
 2. It is a by-product of fires (Stove, oil lamps or fireplace)
