

Project Title- Building a multi-country, civil society partnership to increase the resilience of coastal populations in South Asia

Supported by – Global Nature Fund

Project Duration – 2 Years

Project Location- Jui, Washi Villages from Coastal Area of Raigad District

Overall Project Objective-

TERRE Policy Centre together with the Global Nature Fund aim to develop and consolidate a partnership of 8 civil society organizations in South Asia for the purpose of elaborating best practices of climate resilience in the region. We establishing 10 Mangroves Nurseries in Maharashtra, plant the raised mangrove saplings on 20 Ha. degraded land and build capacities in local communities to sustainably operate the mangrove nurseries.

Furthermore TPC is to establish a solar lamp service hub in a fishing community and to provide 50 solar lamps to local fisher folks and to provide service and maintenance for the lamps in attempt to introduce this innovative technology into the fishing communities.
