

SUSTAINABILITY

TERRE is a non – profit, non – partisan and independent organization dedicated to sustainable solutions to our developmental imperatives. Our motto is: “To think is good but to act is better.”

TERRE also is the abbreviation for ‘Technology Education, Research and Rehabilitation for the Environment.’ These four tools make – up our ‘environmental kit’ to undertake the work always respecting the value of our ecosystems. With the help of this toolbox we strive to reach all strata of society, particularly the young generation and people at the bottom of the pyramid.

TERRE in French means the earth. The Earth is our only home in this vast universe. That itself is a strong enough reason that we should take care of it.

Organized by

TERRE Policy Centre

306 Multicon Square near Manohar
Mangal Karyalay Erandwane, Pune
411004 (India)
