

TERRE Teachers Olympiad 2018-19

TERRE Policy Centre has conducted this national level initiative in collaboration with Earth Day Network for the awareness of school teachers towards different environmental aspects for promoting a sustainable future for us and our upcoming generation. TERRE Teachers Olympiad is an environmental knowledge based online quiz competition where teachers can participate through our online portal. This competition will encourage teacher to educate and aware children regarding environmental issues and will also increase their interest in this field to grow their knowledge.
